Each of us is born with a set of sacred agreements –
our own unique contribution to that which the world needs. The new
guru is not outside ourselves, and yet, it is not a solo-spiritual endeavor.
Now is the time to trust in our own divinity and that of others, and
TOGETHER take the next step in human evolution,
the awakening of the heart.

Your Hosts & Guides offer fierce support for, and an over-arching context in which to consciously create from an

inspired, intuitive place. “When we *Serve* the guru in ourselves, then we *Serve* our lives, the earth, and all of Creation.”

Jennifer Comeau, jennifercomeau.com, claims inner sovereignty as dream-tender, songwriter, storyteller, ally of the earth and creator of sanctuary. She merges her engineer’s training with her poet’s heart to offer inspirational songs, stories, and sanctuary. She believes inspiration is the rocket fuel that propels creativity and change, and transformative change is what we are all being called to in these times. She invites us to: “Stop climbing every body else’s mountain. The only mountain longing to be climbed is your own.”

Cheryl Phillips, founder of greenestbeans.com, believes in the power of trust — in starting at the deep end of the pool. “because we already have life-guards. Some call them angels. I call them my ethereal support team.” Cheryl has used her intuitive skills in a fluid, though less visible way, for decades in her IT and start-up work. Now, she helps others remember past lives, and access wisdom from both sides of the veil in order to live, act from, and embody their own magnificence.

Future Offering: Embodying Circle —a monthly circle to sustain and flourish the conscious creation of your magnificent self.
