

VOICES FROM FINDHORN

~ Strong Hope, Deep Courage, Big Love

Thursday June 13th, 6:30 – 8:30PM

Biddeford Pool Community Center

2 Yates St, Biddeford Pool, ME 04006

The Climate Change & Consciousness Conference (#CCC19) held in Findhorn, Scotland in April, called together a diverse tapestry of voices – from experts, artists, and activists around the globe, with the wisdom and perspective of First Nations people and children. Poet, singer-songwriter, and *ally of the earth*, **Jennifer Comeau**, returns as *messenger*, and

believes amid the paralyzing bad news is a profound and sacred gift, an evolutionary impulse humans have both yearned for and forgotten.

“Never has there been a more important time to be alive, to serve the interconnectedness of life.” To do so, she says, takes strong hope, deep courage, and big love. This workshop delves into how we as individuals and communities can adapt crucial capacities to meet these times. A freewill love offering will be collected, with proceeds to charleseisenstein.org. Refreshments served.
